Learning to Play Sep 17 2022 In this textbook the author takes as inspiration recent breakthroughs in game playing to explain how and why deep reinforcement learning works. In particular he shows why two-person games of tactics and strategy fascinate scientists, programmers, and game enthusiasts and unite them in a common goal: to create artificial intelligence (AI). After an introduction to the core concepts, environment, and communities of intelligence and games, the book is organized into chapters on reinforcement learning, heuristic planning, adaptive sampling, function approximation, and self-play. The author takes a hands-on approach throughout, with Python code examples and exercises that help the reader understand how AI learns to play. He also supports the main text with detailed pointers to online machine learning frameworks, technical details for AlphaGo, notes on how to play and program Go and chess, and a comprehensive bibliography. The content is class-tested and suitable for advanced undergraduate and graduate courses on artificial intelligence and games. It's also appropriate for self-study by professionals engaged with applications of machine learning and with games development. Finally it's valuable for any reader engaged with the philosophical implications of artificial and general intelligence, games represent a modern Turing test of the power and limitations of AI.

Claude Rains Jun 14 2022 Late in Claude Rains's distinguished career, a reverent film journalist wrote that Rains "was as much a cinematic institution as the medium itself." Given his childhood speech impediments and his origins in a destitute London neighborhood, the ascent of Claude Rains (1889-1967) to the stage and screen is remarkable. Rains's difficulties in his formative years provided reserves of gravitas and sensitivity, from which he drew inspiration for acclaimed performances in *The Invisible Man* (1933), *Mr. Smith Goes to Washington* (1939), *Casablanca* (1942), *Notorious* (1946), *Lawrence of Arabia* (1962), and other classic films. In *Claude Rains: An Actor's Voice*, noted Hollywood historian David J. Skal draws on more than thirty hours of newly released Rains interviews to create the first full-length biography of the actor who was nominated multiple times for an Academy Awards for Best Supporting Actor. Skal's portrait of the gifted actor also benefits from the insights of Jessica Rains, who provides firsthand accounts of the enigmatic man behind her father's refined screen presence and genteel public persona. As Skal shows, numerous contradictions informed the life and career of Claude Rains. He possessed an air of nobility and became an emblem of sophistication, but he never shed the insecurities that traced back to his upbringing in an abusive and poverty-stricken family. Though deeply self-conscious about his short stature, Rains drew notorious ardor from female fans and was married six times. His public displays of dry wit and good humor masked inner demons that drove Rains to alcoholism and its devastating consequences. Skal's layered depiction of Claude Rains reveals a complex, almost inscrutable man whose nuanced characterizations were, in no small way, based on the more shadowy parts of his psyche. With unprecedented access to episodes from Rains's private life, Skal tells the full story of the consummate character actor of his generation. *Claude Rains: An Actor's Voice*, gives voice to the struggles and innermost concerns that influenced Rains's performances and helped him become a universally respected Hollywood legend.

Claude Rains Mar 31 2021 The career of Claude Rains is often, and unfairly, overshadowed by the careers of the ever-popular Karloff, Lugosi, Chaney

and Rathbone, but few can dispute that he was truly one of the world's foremost character actors. The Invisible Man, ironically, made him quite the visible star. In his own inimitable way, Rains later became John Jasper (in *Mystery of Edwin Drood*), Louis Renault (*Casablanca*), Julius Caesar (*Caesar and Cleopatra*), and Mr. Dryden (*Lawrence of Arabia*). While concentrating on Rains' more than fifty films, this book also comprehensively examines his work in other media: the stage, radio, television and recordings. His only child, Jessica, in the foreword, provides a brief biography of her father. There are many rare photographs.

Klok zonder wijzers Aug 24 2020 Het is 1953. In een stadje in Georgia, in het zuiden van de Verenigde Staten, volgen we vier mannen. De negenendertigjarige J.T. Malone, drogist en apotheker, hoort dat hij ongeneeslijk ziek is en probeert in het reine te komen met zijn geweten vanwege zijn 'verspilde leven'. Fox Clane, een oude rechter, verzet zich tegen integratie van de zwarte bevolking en verlangt naar de oude waarden van het Zuiden. Zijn dwarse, idealistische kleinzoon Jester koestert heimelijk gevoelens voor Sherman, een zwarte weesjongen met blauwe ogen. Sherman, die te vondeling is gelegd in de kerk, worstelt met zijn identiteit. Gaandeweg blijkt dat hun levens onlosmakelijk met elkaar zijn verbonden. In deze laatste roman van Carson McCullers komen al haar thema's samen: eenzaamheid, onbeantwoorde liefde, intolerantie en vooroordelen, geheimen en verlossing.

Waanzin en betovering Feb 10 2022 De waterlelieschilderijen van Claude Monet behoren tot de meest geliefde kunstwerken van de vorige eeuw. Al zijn ze nog zo bekend, slechts weinigen weten dat deze rustgevende afbeeldingen werden geschilderd in een periode vol onrust en droefheid van

de kunstenaar. Vlak na elkaar brak de Eerste Wereldoorlog uit, verloor Monet zijn vrouw en een zoon en begon hij, inmiddels 71 jaar, blind te worden. Tot overmaat van ramp werd zijn reputatie onder vuur genomen door een nieuwe generatie kunstenaars - onder aanvoering van Picasso en Matisse - die openlijk afrekende met de impressionisten. Hoewel Monet vocht tegen zelftwijfel, depressie en ouderdom, schilderde hij op gigantische doeken zijn waterlelies, in de hoop dat dit hem weer energie zou geven. Met hulp van niet eerder ontdekte brieven, memoires en ander bronmateriaal en door zich te concentreren op de dramatische omstandigheden waaronder Monet de waterlelies schilderde, schetst Ross King een aangrijpend en origineel portret van de nadagen van deze wereldberoemde schilder.

Esmeralda May 21 2020 This book contains Victor Hugo's 1869 play, "Esmeralda". It is based on Esméralda, a fictional character in Hugo's 1831 novel "The Hunchback of Notre-Dame". Hugo originally wrote "La Esmeralda" as an opera libretto and adaptation of "Notre Dame de Paris". However, there are notable differences between the two, the most obvious of which is the representation of the character Phoebus—in "La Esmeralda", he is noble and righteous, but in "Notre Dame de Paris", he is a womaniser and scoundrel. Victor Marie Hugo (1802 - 1885) was a French novelist, dramatist, and poet belonging to the Romantic movement. He is widely hailed as one of the most accomplished and well-known French writers, originally achieving renown for his poetical endeavours—the most notable of which are the volumes "Les Contemplations" and "La Légende des siècles". Outside of his native country, Hugo's best-known works are his novels: "Les Misérables" (1862) and "Notre-Dame de Paris" (1831), commonly known as "The Hunchback of Notre-Dame". Aside from his literary achievements, he also produced over 4,000 beautiful drawings and was a prominent campaigner for social and political issues, including abolishing capital punishment. Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, high-quality, modern edition complete with a specially commissioned new biography of the author.

Claude Simon Sep 24 2020 This is a major study of the Nobel prize-winning French novelist Claude Simon. Simon is a complex figure: for all that he writes in a distinctively modern fictional tradition (exemplified by Proust, Joyce, Beckett and Robbe-Grillet), his novels contain strong elements of visual representation alongside a very different kind of free-floating, anti-realist writing.

Hoe maak je een ruimteschip Dec 20 2022 Op 20 juli 1969 kijkt de wereld ademloos toe als de eerste mens voet op de maan zet. Een wereldwijde fascinatie met ruimtevaart is geboren. Ook bij de jonge Peter Diamandis ontwaakt de droom om astronaut te worden. Wanneer hij zich realiseert dat NASA bemande ruimtevaart aan het terugschroeven is, begint hij aan een avontuur dat leest als een jongensboek. Als de overheid hem niet naar de ruimte kan brengen, dan creëert hij de commerciële ruimtevaartindustrie toch zelf? In 1990 was ruimtevaart voorbehouden aan wereldmachten. Het idee van commerciële ruimtevaart was pure science fiction. Het weerhield Diamandis echter niet en hij vond inspiratie in het verleden: de gouden eeuw van de luchtvaart. Hij ontdekte dat Charles Lindbergh zijn trans-Atlantische vlucht had gemaakt om een prijs van \$25.000 te winnen. Die vlucht maakte hem de beroemdste man op aarde en vormde het fundament voor de luchtvaartindustrie. Waarom zou hetzelfde niet mogelijk zijn voor de ruimtevaart? Diamandis bedenkt de XPRIZE; een prijs van \$10.000.000 voor het eerste team dat een bemand ruimteschip twee keer binnen twee weken in de ruimte weet te krijgen. Het uitschrijven van de prijs resulteerde, zoals Diamandis hoopte, niet alleen in een overwinning van een team, maar legde de basis voor een nieuwe ruimtevaartindustrie. Het buitengewone verhaal van de kogelvormige SpaceShipOne en de andere teams op

jacht naar de prijs, gaat over het onmogelijke mogelijk maken en het najagen van obsessies.

Ensemble Nov 14 2019 This definitive history brings Chicago's celebrated theater and comedy scenes to life with stories from some of its biggest stars spanning sixty-five years. Chicago is a bona fide theater town, bursting with vitality that thrills local fans and produces generation after generation of world-renowned actors, directors, playwrights, and designers. Legal Education in the Digital Age Feb 27 2021 During the coming decades, the digital revolution that has transformed so much of our world will transform legal education as well. The digital production and distribution of course materials will powerfully affect both the content and the way materials are used in the classroom and library. This collection of essays by leading legal scholars in various fields explores three aspects of this coming transformation. The first set of essays discusses the way digital materials will be created and how they will change concepts of authorship as well as methods of production and distribution. The second set explores the impact of digital materials on law school classrooms and law libraries and the third set considers the potential transformation of the curriculum that the materials are likely to produce. Taken together, these essays provide a guide to momentous changes that every legal teacher and scholar needs to understand.

One Night, Two Teams Jun 02 2021 In the sweltering heat of September of 1970 on Legion Field, the USC Trojans and the University of Alabama's Crimson Tide played a game that defined the emancipation of the South from its sordid history of racial segregation. Based on interviews with many of the game's participants and thoroughly researched this book presents sports as a metaphor for one of the most profound social changes in history.

The Psychology of Passion Jul 23 2020 The concept of passion is one we regularly use to describe our interests, and yet there is no broad theory that can explain the development and consequences of passion for activities across people's lives. In *The Psychology of Passion*, Robert J. Vallerand presents the first such theory, providing a complete presentation of the Dualistic Model of Passion and the empirical evidence that supports it. Vallerand conceives of two types of passion: harmonious passion, which remains under the person's control, and obsessive passion, which controls the person. While the first typically leads to adaptive behaviors, the obsessive form of passion leads to less adaptive and, at times, maladaptive behaviors. Vallerand highlights the effects of these two types of passion on a number of psychological phenomena, such as cognition, emotions, performance, relationships, aggression, and violence. He also discusses the development of passion and reviews a range of literature on passion for activities.
