Sold in a package of 20 forms,
these three English subtests
are a part of the Bilingual
English-Spanish Assessment
(BESA), a language assessment
for use with children ages 4
through 6 years who have
varying degrees of
bilingualism. Standardized and
norm-referenced, the subtests
take about 15 minutes each
and address the key domains of
morphosyntax, semantics, and
phonology. BESA Phonology
Subtest. A single-word
phonological assessment, the
English measure of this subtest
assesses phonological
production of 31 English
words. When conducted with
the Spanish measure (learn
more here), this subtest is
designed to differentially
diagnose typical from atypical
phonological skills in Spanish-
English bilingual children.
BESA Morphosyntax Subtest.
This subtest employs cloze and
sentence repetition tasks to
target grammatical morphemes
and sentence structures that
were predicted to be difficult
for children with language
impairment in English. A

grammatical cloze subscore, a sentence repetition subscore, and a total score that is a composite of those two subscores are derived. BESA Semantics Subtest. This subtest targets six tasks: analogies, characteristic properties, categorization, functions, linguistic concepts, and similarities and differences. The English semantics subtest has a total of 25 items: 10 receptive and 15 expressive. Subscores are provided for semantics receptive and semantics expressive, as well as a total semantics score for each language. ABOUT BESA A valid and reliable assessment that specifically responds to the needs of young Spanish-English bilingual children, BESA was developed to: identify phonological and/or language impairment in bilingual children and English language learners using a standardized protocol differentiate between a delay in English language acquisition and a true language disorder document children's speech

and language strengths and needs monitor children's progress in both languages and use the information to make decisions about intervention Through a combination of subtests for students and surveys for teachers and parents, BESA reveals the big picture of a young bilingual child's language development.
