*Religion and Society in Twentieth-century Britain Jan 11 2022 Providing a comprehensive account of religion in British society and culture between 1900 and 2000, this book traces how Christian Puritanism and respectability framed the people amidst world wars, economic depressions, and social protest.*

*The Sixties Jan 19 2020 If the World Wars defined the first half of the twentieth century, the sixties defined the second half, acting as the pivot on which modern times have turned.*

*From popular music to individual liberties, the tastes and convictions of the Western world are indelibly stamped with the impact of this tumultuous decade. Framing the sixties as a period stretching from 1958 to 1974, Arthur Marwick argues that this long decade ushered in nothing less than a cultural revolution - one that raged most clearly in the United States, Britain, France, and Italy. Marwick recaptures the events and movements that shaped life as we know it: the rise of a youth subculture across the West; the sit-ins and marches of the civil rights movement; Britain's surprising rise to leadership in fashion and music; the emerging storm over Vietnam; the Paris student uprising of 1968; the growing force of feminism, and much more. For some, it was a golden age of liberation and political progress; for others, an era in which depravity was celebrated, and the secure moral and social framework subverted. The sixties was no short-term era of ecstasy and excess. On the contrary, the decade set the cultural and social agenda for the rest of the century, and left deep divisions still felt today.*

*A History of Foreign Students in Britain Nov 16 2019 Foreign students have travelled to Britain for centuries and, from the beginning, attracted controversy. This book explores changing British policy and practice, and changing student experience, set within the context of British social and political history.*

*The Atlas of Breeding Birds in Britain and Ireland Jun 23 2020*  
*The Atlas plots the results of the survey organised by the BTO and the IWC during the years 1968-72. Over 250 maps show the distribution of 218 species.*

*How to Live in Britain Oct 20 2022*

*Anti-Catholicism and British Identities in Britain, Canada and Australia, 1880s-1920s Nov 28 2020 Recent debates about the definition of national identities in Britain, along with discussions on the secularisation of Western societies, have brought to light the importance of a historical approach to the notion of Britishness and religion. This book explores anti-Catholicism in Britain and its Dominions, and forms part of a notable revival over the last decade in the critical historical analysis of anti-Catholicism. It employs transnational and comparative historical approaches throughout, thanks to the exploration of relevant original sources both in the United Kingdom and in Australia and Canada, several of them untapped by other scholars. It applies a 'four nations' approach to British history, thus avoiding an Anglocentric viewpoint.*

*Black Popular Music in Britain Since 1945* Nov 21 2022 *Black Popular Music in Britain Since 1945* provides the first broad scholarly discussion of this music since 1990. The book critically examines key moments in the history of black British popular music from 1940s jazz to 1970s soul and reggae, 1990s Jungle and the sounds of Dubstep and Grime that have echoed through the 2000s. While the book offers a history it also discusses the ways black musics in Britain have intersected with the politics of race and class, multiculturalism, gender and sexuality, and debates about media and technology. Contributors examine the impact of the local, the ways that black music in Birmingham, Bristol, Liverpool, Manchester and London evolved differently and how black popular music in Britain has always developed in complex interaction with the dominant British popular music tradition. This tradition has its own histories located in folk music, music hall and a constant engagement, since the nineteenth century, with American popular music, itself a dynamic mixing of African-American, Latin American and other musics. The ideas that run through various chapters form connecting narratives that challenge dominant understandings of black popular music in Britain and will be essential reading for those interested in Popular Music Studies, Black British Studies and Cultural Studies.

*Stonehenge, Or, The Romans in Britain* Sep 19 2022

*Juvenile Justice in Britain and the United States* Jul 17 2022 This study, first published in 1978, compares the ways in which the systems in England, Scotland and the United States balance the necessity of meeting children's needs against the protection of their rights. Three approaches to juvenile justice are identified; the criminal justice, the welfare, and the community approach. This book will be of interest to students of sociology, criminology and social work. "

*A Key to Eucalypts in Britain and Ireland* May 03 2021

*The Knights Templar in Britain* Nov 09 2021 The "Knights Templar in Britain" examines exactly who became knights, what rituals sustained them, where the power bases were, and how their tentacles spread through the politics and economics of Britain before their defeat by the Inquisition.

*History of Britain and Ireland* Oct 16 2019 Discover the pivotal political, military, and cultural events that shaped British and Irish history, from Stone Age Britain to the present day, in this revised and updated ebook. Combining over 700 photographs,

maps, and artworks with accessible text, the *History of Britain and Ireland* is an invaluable resource for families, students, and anyone seeking to learn more about the fascinating story of the England, Scotland, Wales, and Ireland. Spanning six distinct periods of British and Irish history, this ebook is the best way to find out how Britain transformed with the Norman rule, fought two world wars in the 20th century, and faced new economic challenges in the 21st century. DK's visual guide places key figures - from Alfred the Great to Winston Churchill - and major events - from Roman invasion to the Battle of Britain - in their wider context, making it easier than ever before to learn how they influenced Britain and Ireland's development through the age of empire into the modern era.

*The Migration Process in Britain and West Germany* Mar 21 2020 A discussion, using Britain and West Germany as case studies, of the post-war migration of labour and its dependents to Western Europe, examining also the resulting development of ethnic minority populations within the European countries.

*POLAND, General (II): Settlement of Poles in Britain and British Empire* Apr 21 2020

*Fertility, Class and Gender in Britain, 1860-1940* May 23 2020 This book offers an original interpretation of the history of falling fertilities in Britain between 1860 and 1940. It integrates the approaches of the social sciences and of demographic, feminist, and labour history with intellectual, social, and political history. It exposes the conceptual and statistical inadequacies of the orthodox picture of a national, unitary class-differential fertility decline, and presents an entirely new analysis of the famous 1911 fertility census of England and Wales. Surprising and important findings emerge concerning the principal methods of birth control: births were spaced from early on in marriage; and sexual abstinence by married couples was a far more significant practice than previously imagined. The author presents a new general approach to the study of fertility change, raising central issues concerning the relationship between history and social science.

*Whatever Happened to Asylum in Britain?* Sep 26 2020 Pirouet, a Briton who has taught at universities in Uganda and Kenya, surveys UK immigration policy between 1987 and 1999 and finds that xenophobia frequently has won out, in spite of political rhetoric in praise of giving shelter to those fleeing persecution. "The legislation passed in the last decade has made

it progressively more difficult for anyone seeking asylum in the UK and life progressively more uncertain and uncomfortable for those who, against all odds, manage to reach this country," she writes. "A mixed message is coming from government....Britain is now irreversibly a multicultural nation, and the only healthy kind of self-definition must take that into account." c. Book News Inc.

Federal Britain Apr 14 2022 John Kendle examines the break-up of the first British empire and the development of modern federalism, including such topical issues as the Anglo-Irish relationship, the United Kingdom's relationship to Europe and devolution.

Policy-making in Britain Feb 24 2023

Polo in Britain Jun 04 2021 Ever since British soldiers returning from India in the mid-nineteenth century introduced their homeland to a fast-paced ball game on horseback, polo has remained the quintessential British sport. Although its origins lie in Asia, British pioneers are credited with both modernizing the game and spurring its spread worldwide. This volume chronicles the history of polo in the British Isles from its beginnings in the 1860s through the summer of 2011. It recounts the development of polo clubs, including the rise and fall of once mighty citadels of the game; describes the major competitions and many of the lesser tournaments in England and Ireland; and gives particular attention to international contests. Biographical sketches of top players, from early innovators to current superstars, and reflections on current issues affecting the game, including the rise of commercialism and the decrease of civility and sportsmanship, complete this vivid panorama of British polo.

The Evolution of Jazz in Britain, 1880-1935 Feb 18 2020 Jazz was brought from America into a very different environment in Britain and resulted in the establishment of parallel worlds of jazz by the end of the 1920s: within the realms of institutionalized culture and within the subversive underworld. Tackley (née Parsonage) demonstrates the importance of image and racial stereotyping in shaping perceptions of jazz, and leads to the significant conclusion that the evolution of jazz in Britain was so much more than merely an extension or reflection of that in America. She sheds entirely new light on the development of jazz in Britain, and provides a deep social and cultural understanding of the early history of the genre.

*Black British Writers in Britain Sep 07 2021*

*Sea Anemones and Corals of Britain and Ireland* Jun 16 2022 The cool temperate waters around Britain and Ireland contain a huge variety of marine life and the sea anemones and corals, the Anthozoa, are some of the brightest and most attractive of all the groups of animals that live in them. Anemones and corals can be found from rockpools to the deepest depths and in all habitats from rocky reefs to soft mud. This is the second edition of this popular guide to all 74 of the sea anemones and corals found in British and Irish inshore waters. It will be an essential companion for divers, rockpoolers and students who want to identify the sea anemones and corals they find and know more about them. Information on identification of 74 species, including their key features and other species with which they could be confused Illustrated with over 200 photographs taken in situ showing the animals as they look in real life Habitat, distribution, depth, size, rarity and conservation status for each species where known Information and photographs of other animals that prey on or live with sea anemones and corals Details of body structure, feeding and reproduction, illustrated with photographs and drawings Information about recent research on populations of sea anemones and corals carried out by Seasearch volunteer divers A summary of conservation issues for sea anemones and corals in Britain and Ireland

*Distrust of Institutions in Early Modern Britain and America* Mar 13 2022 Distrust of public institutions, which reached critical proportions in Britain and the United States in the first two decades of the twenty-first century, was an important theme of public discourse in Britain and colonial America during the early modern period. Demonstrating broad chronological and thematic range, the historian Brian P. Levack explains that trust in public institutions is more tenuous and difficult to restore once it has been betrayed than trust in one's family, friends, and neighbors, because the vast majority of the populace do not personally know the officials who run large national institutions. Institutional distrust shaped the political, legal, economic, and religious history of England, Scotland, and the British colonies in America. It provided a theoretical and rhetorical foundation for the two English revolutions of the seventeenth century and the American Revolution in the late eighteenth century. It also inspired reforms of criminal procedure, changes in the system of public

credit and finance, and challenges to the clergy who dominated the Church of England, the Church of Scotland, and the churches in the American colonies. This study reveals striking parallels between the loss of trust in British and American institutions in the early modern period and the present day.

*Ethnic Minorities in Britain* May 15 2022 A Home Office Research Unit report.

*The Naturalist in Britain* Jan 23 2023 At once a major resource for historians of science and an excellent introduction to natural history for the general reader, David Allen's *The Naturalist in Britain* established a precedent for investigating natural history as a social phenomenon. Here the author traces the evolution of natural history from the seventeenth to the early twentieth centuries, from the "herbalizings" of apprentice apothecaries to the establishment of national reserves and international societies to the emergence of natural history as an organized discipline. Along the way he describes the role of scientific ideas, popular fashion, religious motivations, literary influences, the increase of leisure time and disposable income, and the tendency of like-minded persons to form clubs. His comprehensive and entertaining discussion creates a vibrant portrait of a scientific movement inextricably woven into a particular culture.

*The Absent-Minded Imperialists* Oct 08 2021 The British empire was a huge enterprise. To foreigners it more or less defined Britain in the nineteenth and early twentieth centuries. Its repercussions in the wider world are still with us today. It also had a great impact on Britain herself: for example, on her economy, security, population, and eating habits. One might expect this to have been reflected in her society and culture. Indeed, this has now become the conventional wisdom: that Britain was steeped in imperialism domestically, which affected (or infected) almost everything Britons thought, felt, and did. This is the first book to examine this assumption critically against the broader background of contemporary British society. Bernard Porter, a leading imperial historian, argues that the empire had a far lower profile in Britain than it did abroad. Many Britons could hardly have been aware of it for most of the nineteenth century and only a small number was in any way committed to it. Between these extremes opinions differed widely over what was even meant by the empire. This depended largely on class, and even when people were aware of the empire, it had no

appreciable impact on their thinking about anything else. Indeed, the influence far more often went the other way, with perceptions of the empire being affected (or distorted) by more powerful domestic discourses. Although Britain was an imperial nation in this period, she was never a genuine imperial society. As well as showing how this was possible, Porter also discusses the implications of this attitude for Britain and her empire, and for the relationship between culture and imperialism more generally, bringing his study up to date by including the case of the present-day USA.

Memory and Desire Aug 06 2021 *Memory and Desire* is a lavishly illustrated account of the art world in Britain at the turn of the twentieth century. It calls upon rich resources of contemporary diaries, letters and art criticism, as well as the analysis of works of art to answer questions about how and why new artistic tendencies emerged and tastes changed. Eschewing the familiar narrative of an inevitable progress towards modernism, Kenneth McConkey considers a broad range of art and critical thinking in the period. Discussing the market for old master paintings, which rivalled those for modern art, and the question of how and why certain genres of art were particularly successful at the time, McConkey explores the detail and significance of contemporary taste. He draws upon the work of commercially successful painters such as John Singer Sargent, William Orpen, George Clausen, Alfred East, John Lavery and Philip Wilson Steer, and their critic-supporters to throw light upon current arguments about training, aesthetics, visual memory and the creation of new art. *Memory and Desire* is a major contribution to our knowledge of this important period in British art.

Working Class Cultures in Britain, 1890-1960 Jan 31 2021 This textbook looks at the construction of class within the intimate contexts of the body, the home, the marketplace, the locality and the nation to assess how the subjective identity of the 'working class' has been maintained. Integrating a variety of historical approaches and methods, Joanna Bourke looks at the construction of class within the intimate contexts of the body, the home, the marketplace, the locality and the nation to assess how the subjective identity of the 'working class' in Britain has been maintained through seventy years of radical social, cultural and economic change. She argues that class identity is essentially a social and cultural rather than an institutional

or political phenomenon and therefore cannot be understood without constant reference to gender and ethnicity. Each self contained chapter consists of an essay of historical analysis, introducing students to the ways historians use evidence to understand change, as well as useful chronologies, statistics and tables, suggested topics for discussion, and selective further reading.

The Culture of Equity in Restoration and Eighteenth-Century Britain and America Dec 18 2019 Extending the chronological and cultural scope of Fortier's book on equity, which focuses on early modern England, this interdisciplinary study draws on politics, religion, law, literature, and philosophy to argue that equity continued to be a key word throughout the Restoration and 18th century in Britain and America. Fortier asserts that equity is used and contested in many of the major social and political events of the period.

In Search of the Constitution Dec 10 2021

Manufacturing in Britain Dec 30 2020 Britain was the birthplace of the Industrial Revolution & remains one of the most attractive countries in the world for direct foreign investment. However, in terms of productivity & a number of other major performance measures, British manufacturers have often lagged behind their overseas competitors. The favourableness of the UK political-legal environment for industry has also been diminished of late by increases in taxation & regulation (etc.). This study provides a detailed review & analysis of key factors affecting growth & performance in an important sector of the British economy.

Disabled People in Britain and Discrimination Oct 28 2020

Arguing that disability is a civil rights issue, this study outlines, often using official statistics, the denial to disabled people of full and equal access to the institutions of British society. It contends that only disabled people themselves can bring about a change in this situation.

How to Live in Britain Dec 22 2022

This Blessed Plot Jul 25 2020 Is Britain a European country?

British journalist Young examines the many threads of this controversy, which is deeply embedded in British politics and contains within it deeper conflicts about what it means to be British and how its leadership behaves. He brings to the account insights gained from interviews with the principal participants, building each phase of the last 50 years' history around the roles and records of the leading players. Annotation copyrighted by Book News, Inc., Portland, OR

Lost Britain Feb 12 2022 From vanished villages and bygone businesses to abandoned architecture, forgotten pastimes and projects put on hold, Lost Britain tells the intriguing story of Britain's buildings, counties, transport, languages, roads and rivers that have been forgotten over the centuries. The book shines a light on the hidden corners of Britain's history, exploring medieval ghost villages, former architectural masterpieces, the purported resting place of Anne Boleyn's heart, England's Atlantis, God's Gift, a German war cemetery, the hamlet of Lost in Aberdeenshire, the old Welsh railway run on seven different forms of power and a missing fort in County Down, not to mention how Britain used to be connected to mainland Europe. Exploring the history of the lost parts of Britain, author David Long both mourns their loss and celebrates the achievements of the engineers and architects of past generations, revealing some extraordinary features of this nation's history that should not be forgotten.
