Students between the ages of 9-15 often seem to exist in a Twilight Zone between childhood and functioning adulthood. These critical years are an essential time to teach those adolescents to accept responsibility for the consequences of their own behaviour, to recognize that mistakes can be an opportunity for learning, and to formulate and live with classroom rules and community rules that promote responsibility, respect, and self-discipline. Richard L Curwin offers teachers eight classroom-ready strategies that will help their students make good choices for good behaviour in the classroom and then transfer those behaviours to the real world outside school. The word "pietism" usually conjures up a host of ambivalent impressions. It has seemed to me increasingly clear that many of the strengths of pietism have been swept aside by reactions against the excesses of the movement. To properly assess the structures of pietism, it is important to comprehend its matrix and to understand its exponents. In preparing this study, therefore, I have sought to recapture something of the person of Theodorus Jacobus Frelinghuysen as well as the gist of his thought; something of his environment as well as the institutions of his day. To achieve this I have traveled many by-paths and knocked on many doors. But the past has not always yielded its secrets; much is lost forever. Hagen in Westphalia, Frelinghuysen's birthplace, is now a modern city and only in a few isolated particulars is it reminiscent of Hagen in 1693. In the nearby village of Schwerte, however, the ancestral church of his forebears remains as it was nearly three hundred years ago. The gymnasium he attended in Hamm was destroyed in the bombings of World War II, though the library he used during his study at Lingen is still largely intact. In the tiny East-Frisian village of Loegumer Voorwerk, Frelinghuysen's first parish, one can still stand in the pulpit where he first preached his awakening gospel. Yet oddly enough, in America, where his name is most remembered, most physical traces of his life have disappeared. Winner of the 2020 Christian Book Award for Bible of the Year! The context for the teaching and learning of English for specific disciplinary purposes is undergoing profound changes under the influence of economic globalization and new digital communication technologies. English in the Disciplines demonstrates how fundamental principles of ESP, to tailor language learning materials to the needs of specific groups of learners, can be adapted to new contexts of learning in the digital age. Based on sustained research into students' experiences in an ESP context in Hong Kong, this volume provides an empirically grounded and practical methodology to ESP learning and course design and features: • mixed-method case studies; • links between theory and practice, with plentiful examples of teaching materials and learning activities; • recognition of the effect of new technologies and globalization on the practice of ESP, highlighting problems and providing practical solutions; • a new pedagogical model for ESP course design, addressing multiple dimensions relevant to today's ESP learners including learner autonomy, genre, multimodality and digital literacies, plurilingual practices, and project-based learning and collaboration. English in the Disciplines provides key reading for anyone studying and researching this topic. When Paul and Silas were in prison in Philippi, they burst into singing. Paul looked at life with a joyful song. He found delight when believers lived in harmony. The theme of this Bible study is Pauls Life-Song. Hear his song in the letter he wrote to Philippi, even while in another prison. Some strains explode with joy, while other stanzas carry a minor melody to encourage or warn the people he loved. Study his messages and learn how to apply Pauls attitudes regardless of his circumstances. This Bible study is rich with insights into the Hebrew and Greek and covers themes Paul brings from the Old Testament or

other New Testament teachings. Dive deeper into those themes by taking important excursions into the background of the topics. This in-depth verse-by-verse investigation is valuable for individuals or groups. Enjoy the commentary while completing the workbook and applying the messages to everyday situations. Determine your timeframe for the study as you discover what the Lord Jesus wants to do in your life through Paul. I've had the privilege of knowing Sharon Gresham as a teacher/speaker for many years and now as a writer. Her commitment to in-depth study and application of the Bible is refreshing. The Philippians study equips the pastor/teacher with a resource much needed in the church today. I am excited to teach this study both in our church and as we minister internationally. Darrel Auvenshine, pastor of Southside City Church, Fort Worth, Texas With a gift for accurately communicating God's Word in a relevant and personal way, Sharon Gresham's in-depth study of Philippians will delight and thrill any serious student of the Scriptures. I highly recommend it! This book examines corporal punishment in United States public

schools. The practice—which is still legal in nineteen states—affects approximately a quarter million children each year. Justification for the use of physical punishment is often based on religious texts. Rather than simply disregarding the importance of religious commitment, this volume presents an alternative faith-based response. The book suggests the “hermeneutical triad,” of sacred text, tradition, and reason as an acceptable approach for those seeking to be faithful to religious text and tradition. Included in this volume are papers which are recognized as some of the foundations of post-Keynesian Economics, analysing problems set in historical time and starting from 'real world' observations. The book reflects Geoff Harcourt's contribution to economic debate over more than three decades. It also includes intellectual biographies of some of the most prominent and leading unorthodox economists, such as Kenneth Boulding, Eric Russell and Lorie Tarshis. Replace traditional school discipline with a proven system, founded on restorative justice.
